

StandbyU Shield 4G Watch

Quick Testing Guide - Family&Friends Plan

Prepare to Test

- Charge the watch.
- Check that the watch is turned on.
- Let Responders know you're testing.
Remind them not to escalate the call during the test.

Activate the SOS Alarm

- Press the SOS button for 5 seconds.
- The device will vibrate 5 times.
- Speak clearly for 30 seconds.

Check back with Your Responders

- Did they receive the location text, and hear the audio clearly?
- Any issues during testing?
Let your Responders know you'll test again in 10 minutes.
- If the second test isn't successful, contact the StandbyU Shield Team on 1800 069 010.
